Profile

Computer Science Master's student at ETH Zurich and Research Fellow at the IVIA Lab, working on reinforcement learning for shared-initiative human-AI collaboration. Background in machine-learning research, software engineering, and robotics.

Education

- | | |
|---|---|
| MSc ETH Zurich , Computer Science
• Focus on reinforcement learning, robot learning, and human-AI collaboration. | Zurich, Switzerland
2026 – present |
| BSc TU Wien (Vienna University of Technology) , Computer Science
• Additional one-year Honors track focused on machine learning.
• Received merit-based scholarships. | Vienna, Austria
Oct 2022 – June 2026 |

Experience

- | | |
|---|---|
| Siemens Mobility , Software Engineer (part-time)
• Contributed to a testing framework for the European Train Control System (ETCS) and its autonomous train operation (ATO) mode.
• Worked on train-operation and train-simulation frameworks. | Vienna, Austria
Aug 2025 – July 2026
1 year |
| Institute for Human-Centered Technology, TU Wien , Teaching Assistant
Course: Interface and Interaction Design (Prof. Jessica Cauchard).
• Guided 45 of roughly 500 students through the human-centered product-development lifecycle and was responsible for their grading. | Vienna, Austria
Mar 2025 – July 2025
5 months |
| TU Wien Space Team , Frontend Developer
• Built flight-software frontends for the "Llamar" rocket.
• Successful launch at the European Rocketry Challenge (EuRoC) 2025. | Vienna, Austria
Mar 2025 – Oct 2025
8 months |

Research

- | | |
|---|--|
| IVIA Lab, ETH Zurich , Research Fellow (ETH SSRF)
Supervised by Prof. Menna El-Assady.
• Reinforcement learning for shared-initiative human-AI collaboration and agency delegation.
• Selected for the ETH Student Summer Research Fellowship among fewer than 1% of over 2,000 applicants. | Zurich, Switzerland
July 2026 – present |
| Machine Learning Research Unit, TU Wien , Undergraduate Researcher
Supervised by Prof. Clemens Heitzinger.
• Studied the convergence and stability of Q-Learning and Speedy Q-Learning. | Vienna, Austria
Oct 2024 – Dec 2025 |
| TU Wien Robotics Club , Software Team
• RL fine-tuning for vision-language-action models (VLAs), audio understanding for robots, and world models. | Vienna, Austria
Apr 2026 – present |

Programs

- | | |
|---|----------|
| ATHENS Exchange — Practice in Deep Learning (Télécom Paris)
Completed the course with the highest possible grade. | Nov 2025 |
|---|----------|

European Student Assembly 2026 (ESA26) — Panel 5	2026
Representing the EULiST alliance on "Unlocking Digital Potential"; writing policy recommendations on inclusive digital literacy and resilience.	
European Honors Conference, Oslo	Oct 2025
Discussing interdisciplinarity and the future of European Honors education.	
Bachelor with Honors Program, TU Wien	Oct 2024
Excellence program — research and advanced machine-learning coursework under Prof. Clemens Heitzinger.	
HUAWEI Seeds for the Future 2023	Sept 2023
15 hours of mentorship on cutting-edge technologies and the global Tech4Good competition.
